

KSeF INSIGHT

ENTERPRISE

KSeF INSIGHT Enterprise is a personalised IT solution for large and medium-sized companies designed for issuing and receiving structured invoices to and from the National System of e-Invoices (Krajowy System e-Faktur, KSeF).

- Efficient communication with the National System of e-Invoices
- Safe integration with the API of the Ministry of Finance
- Full compliance with legal regulations

Tool fully adapted to the clients' needs

Full control over the invoicing process

Professionalism and support at every stage of KSeF

KSeF INSIGHT Enterprise - collects data from the company's own systems, generates invoices in xml format and sends them to the server of the Ministry of Finance

CHECK HOW IT WORKS!

- Personalization - flexible solution tailored to the needs of the clients, ensuring compatibility with existing processes and the direction of the organisation's development
- Integration with financial and accounting systems - the solution ensures secure communication between KSeF and domain systems, compliant with the standards
- Authorisation management in accordance with the standards of the Ministry of Finance
- Structured invoice repository - storage of invoices in one place allows full control over documentation
- Invoice generation - standard invoices collected from the financial and accounting system and converted into xml format
- Invoice acceptance - acceptance of purchase invoices directly in KSeF INSIGHT, followed by transmission of a relevant notification to the finance and accounting systems
- Sending structured invoices at any time via the API service
- Invoice correction - KSeF Enterprise allows to notify the business partner of any incorrect invoices directly, using the tool
- Invoice visualisation - structured invoice preview in PDF format
- Sending automatic notifications to recipients of issued documents via e-mail
- Manual invoicing module - KSeF INSIGHT Enterprise module allows to issue sales invoices directly in the system
- Conducting analyses - the system enables to carry out analyses verifying compliance of sales and purchase invoices with applicable regulations
- Reporting and automation - KSeF INSIGHT enables preparation of multidimensional reports on data sent and received from the National System of e-Invoices
- Possibility to implement RPA - KSeF INSIGHT Enterprise enables to automate your company's invoicing processes
